

REQUEST FOR LETTERS OF INTENT

National MPS Society Research Initiative 2008

The National MPS Society is seeking to fund research projects that would be likely to generate strong preliminary data for major funding in the following areas:

1. The support of basic or clinical research for any MPS syndrome
Five (5) \$60,000 grants
2. The support of basic or clinical research for MPS II
Two (2) \$65,000 grants
3. The support of basic or clinical research for MPS III: Partnership Grant with Children's Medical Research Foundation and Ben's Dream
One (1) \$60,000 grant

Each grant is awarded for two years, with half of total funding provided in 2008 and half in 2009. Syndrome specific research not awarded funding in its specific category will also be considered for funding within the general MPS funding category.

Please e-mail a two-page Letter of Intent summarizing the project and a one-page preliminary budget **no later than March 17, 2008** to:

Barbara Wedehase, Executive Director
barbara@mpssociety.org

Successful candidates will be invited to submit full proposals for a May 1, 2008 deadline; funding will begin July 1, 2008. Grants and fellowships from the National MPS Society are provided to qualified medical researchers for the purpose of promoting medical research in the fields of MPS and related diseases. No institution overhead or other indirect costs will be paid and shall not be included as part of any grant request. There are no restrictions on citizenship, residency or location of research project.
